Natural Fungus Solutions

For over 25 years we have been helping lawn owner's solve many lawn problems including fungus spots. All lawn problems start with poor soil.

1. Start Fertilizing with at least an Organic Based Fertilizer like Richlawn's ProRich Organic Based Lawn Fertilizer 14-5-5 Found at all major home stores and Wal-mart.
We offer this application for 5,000 sq.ft.....\$50.00/app

BETTER....Richlawn's 100% Organic Fertilizer 5-2-1 Found at selected Home Depot (Town Center location)
We offer this application for 5,000 sq.ft.....\$70.00/app

BEST....SUSTAIN 100% Natural Based Fertilizer 5-2-4
Helps to reduce your thatch layer & stimulate Microbes in the soil.
Found at wholesaler - John Deere Landscape Products
We offer SUSTAIN application for 3,000 sq.ft.....\$80.00/app
2. REVIVE Soil Treatment and Root Stimulator
Helps water penetrate deeper into hard clay soils. Helps grass plants send off more roots to absorb more water and nutrients.
Found at major home stores & Wal-mart
We recommend treatments in May and June
We offer REVIVE application for 5,000 sq.ft.....\$50.00/app
3. Lawn Aeration.... Our Guaranteed Best Lawn Aeration produces 3 times as many plugs compared to average roller type aerators.
We recommend Spring and Fall Aerations
Our Aeration up to 5,000 sq.ft.....\$50.00 each
4. Compost Top Dressing of all fungus spots and seeded dead spots.
Recommend Richlawn's EKO Compost, found at all home stores
Fungus spots must be Top Dressed with 1" of compost once a month.
Healing of fungus spots naturally can take 6 months to a few years.
Spread 3 bags of EKO Compost.....\$50.00/app
Each additional bag of EKO Compost.....\$10.00/ bag
